1. Introduction

Table 1

Fig. 1.

$$L = \frac{L_{gt} e}{255} \times 100$$

$$a = \frac{240a}{255} - 120$$

$$b = \frac{240b}{255} - 120$$

$$\Delta E = \sqrt{(L - L) + (a - a) + (b - b)}$$
